### 1 Discussion about new members

**Carlotta Lupatelli** She is joining us. She is a first year PhD in INRAE. She assists to her fist meeting today. Everyone introduces themselves. We do not have a mailing list for INRAE, Carlotta is our contact with this lab since recently to announce our events. She will propose itself for the organization of different events for the coming months.

**Others participations** Some PhD students asked if it was possible to participate in some events without taking responsibilities. We discuss this possibility. They should not be given the same credits as others who are more involved. We only consider giving credits if the member has co-organized at least 1 or 2 events. To think about.

## **2 Feedback of previous events**

### **2.1 Hiking 12/02**

Nice comments.

### **2.2 Axe Throwing 19/02**

Very good feedback, several people have asked to do it again. Can be reorganized during the year.

### **2.3 Afterwork 02/03**

Very nice despite the sound problems. For next time, figure out how to fix the problem with the mic not always working, and maybe buy speakers to have a louder sound.

### **2.4 Before Work 16/03**

A channel will be created on the discord to allow to organize the activity regularly.

### **2.5 Brain Week 17/03**

There were about 20 people, it was nice. Moreover, there were a lot of people who usually don't come to the association's events. There was a lack of communication with the higher level organizers of the brain week, with overlapping events for example. Remember this for next year and try to avoid this kind of problem if such an event is organized again.

### **2.6 Escape Game 26/03**

Good feedback from the participants, everyone seemed to be happy. As a limited number of people were possible, the question of making another one to benefit more people was raised. In this case, we could look for another place, maybe cheaper if possible. We would give priority to the people who did not participate in the previous one.

## **3 Organization state of events - April**

The Game Board event has been postponed to May because Amélie could not organize it this month.

### **3.1 Afterwork in Sophia**

Date: 6/04

Added because of a lack of event in April and because easy to organize. Amélie is in charge of it, volunteers are welcome to help her as the event is done in a hurry. Microphone problem to be solved by then.

### **3.2 Karaoke in Nice**

Date: 28/04 (Supposed, to see after booking)

Difficult to reach the 3 Diables, Laetitia will go to see on the spot. If not available with them, we could see with the Akathor.

### 3.3 Bike

Date: 7/05

Discussion about the type of bike: either rental in a store (possibility of discount if at least 10 bikes rented) or "vélos bleus". Quality will be lower in the 2nd case.

### 3.4 C@fé ADSTIC

Date: between 19/04 and 22/04

Invited: Vladimir. Ideas for next: 2 post-doc from INRAE, Andrew I3S

## 7 Other things

**Web site** Work in progress. Romain had to leave the meeting but Nina tells us that he is slowly working on it when he has time.

**Inventory** The existing inventory should be updated and put in the shared part of the drive so that each member who picks up something can note where the item is. The goal is to always know where things are, and how many of each item we have left for goodies.

**C@fé participation** An email was sent to Claire MIGLIACCIO to know if participations to C@fé ADSTIC can earn ECTS. We are waiting for an answer.

**Questions of Carlotta** Who are concerned by the association ? - Master internship, PhD student and post-doc.

What about the AJC06 ? Is there a conflict of interest between the two associations ? - No, the AJC06 groups all young researchers in all domains of the departement. All members of ADSTIC is a member of AJC06.

What can we do for Ukraine ? Do we know more about the actions that the university wants to take ? - We don't know anything more about things planned by the university. We then talk about what we could do. An idea: take up a collection, for example in front of a supermarket, to send food. A legal question arises, we will have to check that the statutes of the association allow us to do that.

Question about the organisation of events. Sara shows her the drive and all these stuffs.
